## Cal OES Activation Status

| State Operations Center | Inland Region EOC | Coastal Region EOC | Southern Region EOC |
|-------------------------|-------------------|--------------------|---------------------|
| Level 1                 | Normal Operations | Normal Operations  | Normal Operations   |

### Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

### **Situation Overview**

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

### **Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 01/21/21 at 1100 hours:**

- 97,592,565 (+607,487) total confirmed cases in 219 countries and territories.
- 2,090,247 (+15,592) total deaths.

### **Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 01/21/21 at 1000 hours:**

- 24,323,846 (+188,156) total confirmed cases.
- 404,689 (+4,383) total deaths.

### **Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 01/21/21 at 1100 hours:**

- 3,039,044 (+19,673) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

## **CDPH Statewide Travel Advisory**

The California Department of Public Health (CDPH) has issued a new Travel Advisory superseding the November 13, 2020 guidance. Californians should avoid non-essential travel to any part of California more than 120 miles from one's place of residence, or to other states or countries. Non-essential travelers from other states or countries are strongly discouraged from entering California, and if they do, should adhere to quarantine procedures. All persons arriving in or returning to California from other states or countries should self-quarantine for 10 days after arrival, except as necessary to meet urgent critical healthcare staffing needs or engage in emergency response.

# **WEATHER KEY POINTS**

**01/22/21 - 01/28/21**

## **Friday-Saturday**

- Light rain and mountain snow developing across northern California today, spreading into southern California tonight through Saturday night. Minor travel impacts are expected over the higher elevations from light snow accumulation.
  - Gusty winds of 35-45 mph will also develop Friday over the southern Sierra, southern California mountains, Death Valley, and the western Mojave Desert.
- A few thunderstorms are also possible along the central California coast Friday and Saturday

## **Sunday-Thursday**

- Several storms will impact the state later Sunday through the end of the week, with each system progressively stronger and wetter
  - Locally heavy rainfall and heavy mountain snow are possible, especially by Wednesday and Thursday
  - Periods of gusty winds can also be expected with these storms, especially on Monday and Wednesday
  - Snow levels will also gradually fall with each storm, with many burn scars potentially seeing more snow than rain. However, some runoff problems could develop by late week depending on exactly how low snow levels fall.
